AFFIDAVIT

REQUEST FOR PERMANENT POWER

PERMIT NO _____

OWNER _____

PROJECT NAME _____

PROJECT LOCATION _____

I hereby request that the permanent electrical service equipment be energized so that the HVAC system and other equipment may be tested. I understand that this authorizes electrical, telephone, water and sewer hookup and testing and the installation of fixed equipment such as refrigerators, stoves, x-ray equipment, etc. generally necessary to complete the project. I further understand and agree that once the permanent electrical power is connected this does not authorize occupancy of the building AND I WILL NOT DO SO UNTIL THE CERTIFICATE OF OCCUPANCY HAS BEEN ISSUED. Occupancy includes stocking or placement of furniture. Upon completion of the building I will request the final inspection.

I understand fully that in the event that the building or residence is occupied before the issuance of a certificate of occupancy, then the Beaufort County Building is authorized to instruct the utility company to disconnect the electrical service which will not be authorized to be restored until the final certificate of occupancy is issued.
