Event / Project: The 2011 Heritage Golf Tournament

Amount Requested: \$1,000,000.00

Date Funds Needed: January 1, 2011

Description of the event: The Heritage Golf Tournament is a PGA TOUR event played on the Harbour Town Golf Links on Hilton Head Island since 1969. As one of the PGA TOUR's premier events, the tournament is televised around the world in 225 countries, in 30 different languages. With more than twelve hours of coverage it has been estimated the television coverage has a media value of \$35 to \$41 million, but most importantly it showcases Hilton Head Island and the South Carolina Lowcountry attracting visitors to the area for the tournament and for many a repeat visit each year. The economic impact of the event in 2010 attributable to spectators who live outside Beaufort County, SC was estimated by Clemson International Institute for Tourism Research & Development to be \$81.9 million.

For the past twenty-three years the tournament has been sponsored by Verizon Communications or one of its corporate predecessors, but Verizon has decided it will no longer continue as title sponsor. Despite significant attempts to identify a new title sponsor to date we have not been able to find a company willing to agree to fund the TV underpinnings and pay an entitlement fee to us to be able to stage an event in 2011. In order for the tournament to continue we need to fund a projected shortfall of \$5.8 million to satisfy the PGA TOUR we have sufficient financial resources to stage a 2011 tournament and be able to continue our search for a new title sponsor. Without the necessary funding we could lose the tournament and the economic benefits it generates for this area.

Detailed Budget: See attached Exhibit A reflecting a projected shortfall of \$6.4 million. The shortfall includes an expense for what is normally paid for the facilities but we believe this fee could be waived if this request for \$1 million is approved.

Number of Tourists / Tourism Impact: See attached Exhibit B providing details of the economic impact study recently completed by Clemson International Institute for Tourism Research & Development.

Prior Accommodations Tax Receipts: None

Tax Exempt Status: Heritage Classic Foundation is a not-for-profit corporation organized under the laws of South Carolina. A copy of the IRS Determination Letter is attached as Exhibit C.

Previous Year's Operating Budget: See attached Exhibit D provided a comparative income statement reflecting the audited results for the years 2008 and 2009 compared to the 2010 budget, actual results as of June 30, 2010, and the projected results for the year.

How Event Benefits Tourism in Beaufort County: Besides more than twelve hours of televised coverage the Heritage attracts more than 42,500 spectators with 25,980 (61% of the total) indicating a permanent residence outside Beaufort County, SC in 2010. As noted in the Clemson survey the tournament "is an important part of the tourism industry in Beaufort County" and without it "a conservative estimate of between \$50.78 million and \$58.31 million of total economic output would be lost..."

How Many People Attend Event: As noted above, annually The Heritage attracts more than 42,500 spectators during tournament week with 43.9% of them attending 4 or more days. On average spectators spend 3.36 days attending the tournament resulting in 103,000 visitor days contributing to the economic impact in Beaufort County.

Projected Tourism Occupancy Rates: "Occupancy rates in Beaufort County spike during the month of April (Easter week/public school spring breaks and the Heritage Golf Tournament are responsible for this spike) and fall off again as much as 12% for the first couple of weeks of May leading into the summer tourist season" according the Clemson survey. The survey also indicates 71.2% of the tournament visitors indicate the primary purpose of their trip to Hilton Head Island and Beaufort County is to attend the tournament. And, 62% of tournament visitors indicate they are "unsure, unlikely, or very unlikely to visit the area if the tournament is no longer held."

How we determine attendance and distance traveled to the event: When we record badge sales we obtain the name and address of each spectator, including their respective zip code. We know from our records 61% of our spectators live outside Beaufort County. We also know we have sold badges to persons residing in Canada and in 45 states other than SC.

Percentage of Spectators from Outside Beaufort County: Our records indicate 59% of our badge sales are made to spectators from outside Beaufort County.

How we would address a requirement/request to advertise jointly with other organizations: We welcome the opportunity to jointly advertise with other organizations. In fact, we have suggested it would be advantageous for us to do so with the South Carolina Department of Parks Recreation and Tourism, the Hilton Head Island/Bluffton Chamber of

Commerce, the Beaufort Chamber of Commerce and any other organization to cross promote the tournament and this area.

Program Plan to Substantiate Our Funding Request: Keeping the tournament in Beaufort County on Hilton Head Island is vital to all concerned. We estimate to simply breakeven it will require at least \$5.8 million in new sponsor revenue for the Heritage Classic Foundation to be able to keep the tournament because the tournament no longer has a title sponsor to guarantee the purse and TV underpinnings. This estimate assumes no facilities fee will be charged for the Harbour Town venue even though more than \$.6 million was paid in 2010. In short, even if this grant request is approved we will still need to raise at least \$5.8 million to secure a contract with the PGA TOUR for 2011 and hopefully beyond.

Other Financial Information: We operate on a calendar year basis (January 1 through December 31). Our audited financial statements are prepared on an accrual basis. A copy of the audit reports and financial statements for the years ended December 31, 2008 and 2009 are attached. A comparative analysis of the 2008, 2009, and projected 2010 financial results reveals significant changes in admissions, pro-am and non-title sponsor revenues have occurred over the last three years. These changes are due primarily in the downturn in our economy.

Economic Impact of the 2010 Verizon Heritage Golf Tournament

Introduction

In 1999, 2005, and 2010, Clemson University's International Institute for Tourism Research and Development conducted studies for the Heritage Classic Foundation to:

- 1) Provide snapshot demographic information about tournament spectators.
- 2) Determine the effectiveness of marketing activities.
- 3) Estimate the economic activity and impact generated by tournament spectators and the Foundation's spending in Beaufort County.

Primary data was collected at the tournament each year through spectator surveys. For the purposes of estimating the economic activity and impact of the tournament, spending by permanent residents of Beaufort County is excluded from the analysis.

In 2010, the Strom Thurmond Institute's Regional Dynamics and Economic Modeling Laboratory and USC-Beaufort's Department of Hospitality Management were centrally involved in conducting the study.

Economic Impact Modeling

Input/output modeling software was utilized each year to determine tournament impacts. Implan was used in 1999 and 2005 while Regional Dynamics (ReDyn) was utilized in 2010. ReDyn is a newer model and offers advantages over Implan. Estimates for total output/impact tend to be more conservative than Implan and ReDyn provides impact projections rather than only point in time estimates. Data from 1999 and 2005 was run using the ReDyn model to provide an apples to apples comparison across time.

However, since ReDyn's data only goes back to 2001, the 1999 numbers were used to run the model beginning in 2001. Therefore, the researchers were able to provide economic impact estimates looking backwards to 2001 and forward through 2015.

Economic activity and impact estimates are reported in five ways:

- 1) Direct Spending - estimate of actual expenditures by visitors and the foundation
- 2) Wage Bill - payroll to support economic activity
- 3) Jobs - number of jobs supported by economic activity
- 4) Net Government Revenues - taxes and other fees generated by economic activity minus expenses incurred
- 5) Total Output - total impact including direct, indirect, and induced effects

Limitations

The estimates provided here do not include spending by the television network and its personnel, members of the media, Verizon as the title sponsor and other major sponsors, tournament vendors, players, caddies, agents, and their families, club manufacturers, PGA Tour staff, nor were state income taxes paid by players on prize money taken into account.

Impact Comparison 2001-2005-2010 (Regional Dynamics Model)

	2001	2005	2010
Direct Spending	\$34.11 million	\$70.35 million	\$72.30 million
Wage Bill	\$16.81 million	\$30.93 million	\$35.05 million
Jobs	551	948	1115
Net Government Revenues	State: \$4.58 million Local: \$2.15 million	State: \$7.70 million Local: \$3.66 million	State: \$8.56 million Local: \$4.09 million
Total Output	\$44.64 million	\$79.91 million	\$81.90 million

Discussion and Conclusion

The million-dollar question is: What would the effect be if the Verizon Heritage is no longer held in Beaufort County? Because it is highly unlikely that all visiting spectators would not return to Hilton Head if the tournament was no longer held there, it would not be accurate to say that the entire \$81.9 million in total output would be lost. Therefore, spectators were asked their likelihood of returning to the area if the tournament was no longer held on Hilton Head (62% were unsure, unlikely, or very unlikely) and if the tournament was their primary purpose for their visit to the island (71.2% indicated it was). Using those indicators as a gauge, it is likely that between \$50.78 million and \$58.31 million in total output would likely be lost in Beaufort County. It is important to note that even though some spectators will still return to the area, it is highly unlikely that they would all decide to do so during the same week in April.

Since 2001, spending by visitors (permanent residence outside of Beaufort County, SC) and spending by the Heritage Classic Foundation has created almost **\$660 million** in total output, over **\$62 million** in net state government revenues, and over **\$26 million** in net local government revenues.

When the 2011-2015 projected impacts are added, the total economic impact of the Verizon Heritage between 2001 and 2015 will surpass **\$1 billion**, net state government revenues will grow to nearly **\$100 million**, and net local government revenues will grow to **\$44 million**.

THE HERITAGE CLASSIC FOUNDATION RELEASES ECONOMIC IMPACT NUMBERS

HILTON HEAD ISLAND, SC – Despite demanding economic times, The Heritage Golf Tournament still produces an impressive economic impact for the State of South Carolina. According to a survey conducted by Clemson University’s International Institute for Tourism Research and Development the PGA TOUR event had a total output attributable to visitor spending of \$81.90 million during tournament week, April 12-18, 2010.

The survey was conducted throughout a seven day period during the 2010 Verizon Heritage. With help from the University of South Carolina - Beaufort's Department of Hospitality Management, 1891 spectators completed the survey using SNAP Survey Software and touch screen laptops. Researchers from the Strom Thurmond Institute at Clemson University used input/output modeling software called Regional Dynamics (ReDyn) to determine the tournament’s impact.

Researchers measured the economic activity and impact estimates in five ways:

1. Direct Spending (estimate of actual expenditures by visitors and the foundation) \$72.30M
2. Wage Bill (payroll to support economic activity) \$35.05M
3. Jobs (number of jobs supported by economic activity) 1,115
4. Net Government Revenues (taxes and other fees generated by economic activity minus expenses incurred) STATE: \$8.56M & LOCAL: \$4.09M
5. Total Output (total impact including direct, indirect, and induced effects) \$81.90M

The University study also states since 2001, spending by visitors (permanent residence outside of Beaufort County, SC) and spending by the Heritage Classic Foundation has created almost \$660 million in total output, over \$62 million in net state government revenues, and over \$26 million in net local government revenues.

When the 2011-2015 projected impacts are added, the total economic impact of the tournament between 2001 and 2015 will surpass \$1 billion, with net state government revenues growing to nearly \$100 million, and net local government revenues growing to \$44 million.

DATE: April 06, 2010

BACKGROUND. On February 18th, 2010, Beaufort County issued an invitation for bids to perform construction of the Bluffton Parkway from Burnt Church Road to Buckingham Plantation Road. The project consists of 3-mile, 4-lane divided roadway with 8-foot multi-use pathways. The scope of the contract consists of furnishing all materials, labor, and equipment for the complete construction of the new road at a total length of 3 miles. Bidders were allowed to submit bids based on three alternate methods of construction. Alternative 3 provided the best bid prices. The engineer's estimate for Alternative 3 was \$12,136,736.00. Listed below with their corresponding lowest bid are the 10 firms that submitted bids on March 25, 2010:

1. Bluffton Parkway: Phase 5A

Project Description

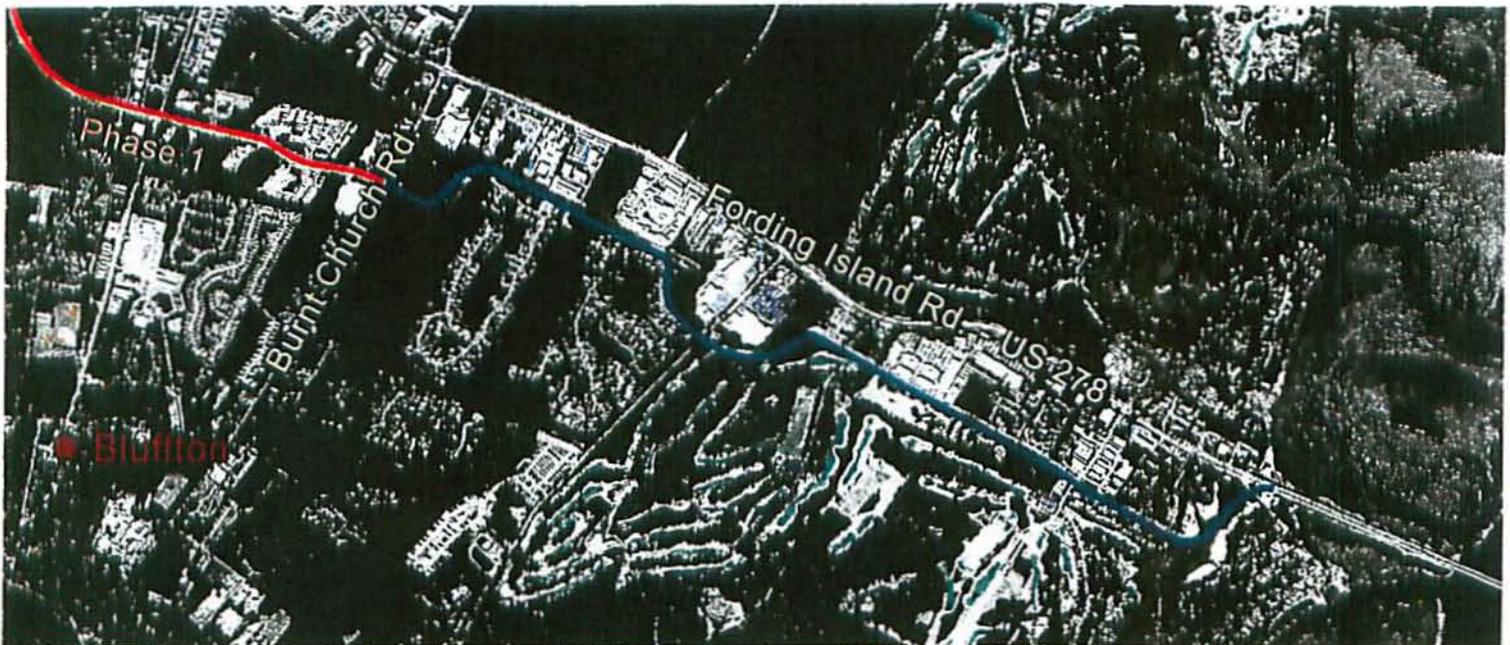

This project is one of two that will make the Bluffton Parkway a continuous roadway from US 278 near the Hilton Head Island bridges to SC 170. It is estimated this road, when complete, will reduce traffic on US 278 in the greater Bluffton area by as much as 30 percent. Each new segment will be a controlled-access roadway with two lanes of travel in each direction, turn lanes, and adjacent multi-use pathways.

Segment 5A will bring the Parkway eastward from Burnt Church Road to US 278 near the bridges to Hilton Head Island. It will be a 3-mile, 4-lane divided highway with 8-foot multiuse pathways. A new flyover bridge will allow traffic onto and off US 278 from Bluffton Parkway. A large portion of the roadway will be routed through existing Santee-Cooper power line easements. Santee-Cooper is relocating their transmission lines at three strategic areas to accommodate the new roadway.
