Re: New River TIF Bonds

Dear Attorney Gruber:

In response to your email dated 9/Nov/12 sent to Robyn Cushingberry, but addressed to me, I offer the following statement/position of the Board of Education:

“While it is evident that the early pay off of the New River TIF bonds is in the best interest of all taxpayers and entities involved, it is also essential that the commitments made by all parties in the New River TIF Agreement be followed as set forth in said Agreement. Therefore, in order for the Beaufort County School District to release any and all outstanding claims against Beaufort County Government relating to the New River TIF Bonds, at a minimum, we require the County to resolve the last issue brought forward during the numerous meetings held over the past year. This issue is directly related to the contractual agreement made in Section 3 of the New River TIF Agreement. The District has demonstrated and the County has acknowledged that the District was harmed in an amount equal to approximately three (3) mils during the TY 2009 Reassessment as it relates to the New River TIF. With that being the case, the District seeks the restoration of two (2) mils to the District’s base millage rate and the tax billings related to such property located in the New River TIF District prior to any calculation relating to the TY 2013 Reassessment.”
We desire and look forward to the rapid development of an MOU with the County which incorporates the points of the aforementioned statement.

We are prepared to meet with representatives from the County anytime that is mutually acceptable to the participants. I do remind you that no one from the School District (Board and administration) will be available this Friday, November 16th. Anticipating hearing from you soon, I am

Yours truly,
