The Chairman recognized Mr. Michael McNally, a South Carolina licensed professional civil engineer and a resident of Okatie, who said a transfer station built on the Hickory Hill location is a perfect adaptive reuse of property. He urged Council to look into this viable alternative before finalizing the Chechessee Road, Okatie site purchase.

Ms. Jean Beck, Executive Vice President, Hilton Head Area Association of Realtors, expressed opposition to the local option sales tax proposed at this time.

Mr. Kent Bird, a resident of Hilton Head Island, has witnessed many accounts where there have been people operating out of Palmetto Bay boat landing in a dangerous fashion. This has been a concern for all of the charter operations on Hilton Head Island.

Capt. David Fleming, a resident of Hilton Head Island, stated in the past several years the Palmetto Bay public boat landing has become an over-the-top private-business enterprise landing.

Mr. Tom Noyes, a resident of Spring Island, opposes the County locating a trash transfer station along Chechessee Road.

Mr. Joe Tatarski, representing the Callawassie Island Property Owners Association, stated locating a trash transfer station at the Chechessee Road site is inappropriate.

Mr. Jim Bequette, a Lady’s Island resident, questioned why Council did not receive a cost benefit analysis regarding the performing of in-house autopsies versus outsourcing. He is disappointed that Council does not receive the tools it should when making decisions for spending money.
Mr. Walter Hancock, a resident of Hilton Head Island, operates a charter boat at public boat landing. This is free enterprise. He only wants access to the water.

Beaufort City Mayor Billy Keyserling stated the County and municipalities have really worked as a team. We finally got the transportation fee on US Highway 170 and the last transportation fee we are planning together. As he looks through the City budget, he does not know where he is going to make ends meet. He does not know what choice he has. He asked Council for the opportunity to use the one single tool available to raise revenue, i.e., local option sales tax for property tax relief.

Mrs. Jocelyn Staigar, Government Affairs Director, Hilton Head Area Association of REALTORS, stated the legislation that Representative Herbkersman put forth would allow 100% of that money to go for property tax relief for the 6% and the 10.5% property owners.

DIVISION 1. GENERALLY

Sec. 102-26. Applicability.

This article applies to all landings and docks owned and maintained by the county.

(Ord. No. 2007/4, 1-8-2007)

Sec. 102-27. Purpose.

County docks and landings are maintained by the county for the purposes of public access for fishing and boating; loading and unloading passengers, supplies, boats and boating gear; and for similar purposes. It is the policy of the county to maintain and regulate such facilities in a manner that will permit the greatest public use and avoid continuous occupancy, congestion or blocking thereof.

(Ord. No. 2007/4, 1-8-2007)

Sec. 102-28. Penalties.

Except where otherwise provided, any person violating any section of this article shall, upon conviction, be fined not less than $100.00 and not more than $1,000.00 or imprisoned for not more than 30 days. A separate offense shall be deemed committed on each day during or on which a violation occurs or continues.

(Ord. No. 2007/4, 1-8-2007)

Sec. 102-29. General prohibitions.

(a) **Fires.** No fires are allowed on county docks, landings, or piers.

(b) **Camping.** No overnight camping of any type shall be permitted on county docks, landings, or piers.

(c) **Structural alterations.** No person or agency shall build, maintain, extend or make structural alterations on any county landing, dock, or pier without first obtaining a written permit to do so from the public works director.
Sec. 102-30. Dock rules.

(a) **Blocking and congestion of county docks.** To ensure public use and avoid extensive occupancy, congestion or blocking of county docks, the county public works director is authorized and directed to post signs limiting the time to three hours during which a vessel may be docked or gear may be placed at or on any county dock.

(b) **Priority of emergency vehicles and public carriers.** Public carrier vessels which have prior county council permission to use such facilities and emergency vehicles shall have priority over all other vehicles at all county docks, landings and piers.

(c) **Use by public carrier vessels.** Sections of county docks to be used by public carrier vessels shall be clearly posted as to the time of usage. No other vessel shall occupy marked sections during posted times.

(d) **Securing vessels.** Every vessel tying up at any county dock shall be fastened thereto with such lines, at least from both bow and stern, and in such manner as to ensure the security of such vessel.

(e) **Fueling vessels.** No person shall fuel any vessel on county docks with any petroleum product directly from a tank wagon or truck.

(f) **Obstructing dock prohibited.** No person shall obstruct the free access to or any departure from any portion of any county dock, pier or landing.

(g) **Motor vehicles on dock.** No person shall drive any motor vehicle upon any county dock, except where there are signs authorizing vehicular traffic. Signs must specify what vehicular traffic is permitted. No person shall drive any motor vehicle upon any county dock except to discharge or load supplies or passengers to or from a vessel or permit any motor vehicle to remain upon any such dock except when actually engaged in discharging or loading such supplies or passengers.

Sec. 102-31. Landing rules.

(a) **Launching and recovery.** Vehicles ready to recover vessels or watercraft from the water shall have preference over those ready to launch, the order being on a first-come basis.

(b) **Unattended or abandoned vehicles and watercraft.** The following shall apply to unattended or abandoned watercraft in access areas of landings:

1. It is unlawful to obstruct any pier, dock, wharf, boat ramp or the access areas to the facilities.

2. Any vessel, vehicle or other object left unattended which obstructs any of the facilities or the access to them may be removed entirely at the risk and expense of the owner.

3. Any vehicle, vessel, or any other object left unattended which obstructs any public boat landing or the access to them may be removed by the Beaufort County Public Works Director entirely at the risk and expense of the owner of the obstruction.

4. No person shall intentionally obstruct access to or any departure from a public boat landing by parking vehicles or submerging vessels or other obstructions in areas in or around a public boat landing. It shall be unlawful for any person to leave unattended or to abandon any watercraft within 50 yards from any point of access to a public boat landing.
The Beaufort County Public Works Director is empowered to remove any watercraft, vessel, or vehicle that has been abandoned. A watercraft, vessel, or vehicle will be deemed abandoned if it is left unattended at a public boat landing for more than 48 hours unless express permission is obtained from the Beaufort County Public Works Director.

(6) The Beaufort County Public Works Director may, at his discretion, destroy such abandoned watercraft or vessel if in his opinion the vessel has been permanently abandoned and has no salvage value. Those vessels removed by the Department of Public Works which appear to have salvage value may be towed to and stored at a location designated by the Beaufort County Sheriff where they may be claimed by the owner with proper identification and payment of a $200.00 fee plus the actual cost of removal and towing. Vessels left unclaimed after a period of thirty days will be disposed of pursuant to the laws of the State of South Carolina.

(7) Any person violating this subsection (b) shall be guilty of a misdemeanor and, upon conviction, shall be fined not less than $100.00 and not more than $1,000.00 or imprisoned for not more than 30 days.

(c) Oystermen, crabbers, commercial fishermen, and other commercial uses. Oystermen, crabbers, other commercial fishermen, and other commercial users may use the county's public landings where permitted to launch and unload their boats. However, they must manage their launching and unloading operations so that whenever another citizen needs to use the landing to get into or out of the water, the other citizen will have no longer than a 15-minute wait for the commercial vehicles and boats to clear space on the landing.

(d) Parking of vehicles and watercraft. The use of accessways and public boat landings shall be for placement in the water and the retrieving of boats from the water.

(1) It shall be unlawful for any person or owner to allow the parking, stopping, or leave standing, whether attended or unattended, any vehicle, obstruction, or watercraft in or on any public boat landing:
   (a) That is blocking, obstructing, or limiting the use of dock or access area;
   (b) For any purpose not related to public access for fishing and boating, loading and unloading boating passengers, supplies, boats and boating gear, or other similar purposes; or
   (c) Contrary to any posted notice prohibiting parking in a given area.

(2) Under no circumstance shall any vehicle be parked at a public boat landing for more than 48 consecutive hours without express permission from the Beaufort County Public Works Director.

(e) Fishing at public boat landings. Fishing is allowed at public boat landings as long as it does not interfere with the launching or recovery of watercraft, or the loading and unloading of passengers. Boaters shall have priority of use of the public boat landing.

(f) Barges. Barges, ferries, and landing craft are specifically prohibited from touching public boat landing ramps or piers, unless use is expressly approved by the Beaufort County Public Works Director.

(g) Government and emergency agency use. Beaufort County Public Works Director may utilize any public boat landing for any governmental use at his discretion. Other governmental agencies wishing to utilize a public boat landing for purposes other than emergency services such as medical services, law enforcement, fire control, search and rescue, or for the ordinary use of the boat landing as set forth above, must obtain approval for that use from the Beaufort County Public Works Director.

May 2, 2013

Dear Mr. Thomas

This letter is in response to our meeting on April 10, 2013 concerning the renewal of the Maintenance contract between Beaufort County and First Vehicle Services. Beaufort County reference number 3961/090668

As you know FVS has been providing professional fleet management service for the County since 1995. The overriding theme of First Vehicle Services has always been to go beyond a simple vendor-client relationship to form a true partnership to deliver first class, value-added service to Beaufort County. We believe that the strong partnership we have developed over the many years of working together has been an important factor in our mutual success and shared accomplishments. All of our FVS employees at the location live in Beaufort County.

We have provided an experienced on-site management team who has placed partnership with Beaufort County at the top of the list. We have furnished a technically-competent, highly productive workforce that lives in the County, pays taxes in the County and gives back to the County by providing a much needed service to Beaufort County. Our local staff is on call 24 hours a day ready to meet the challenge of any emergency.

FVS administers all subcontractor and supplier service work. FVS expects that subcontracted repairs will be limited to instances of cost-effectiveness and time-efficiency, i.e. where the cost of subcontracted repairs will be less than towing the vehicle to the central maintenance facility or less than the cost of repairing the vehicle at the central maintenance facility. FVS assumes all responsibility for paperwork, invoice processing, payment and quality control pertaining to subcontracted services.

FVS uses local vendors as often as possible to help support the community. Only in situations when the part or supply is not available locally, i.e. Caterpillar, John Deere etc. or grossly overpriced we do purchase from vendors outside the County. FVS uses our national Corporate Purchasing Agreements (CPA's) to buy parts and supplies from local Beaufort County.
suppliers such as NAPA, AutoZone and Chrysler for less money than what the County could do on their own. As you know, FVS is part of a $10.5 billion dollar worldwide company with significant purchasing power that is passed on to the County. In addition, the County is not charged for parts until they are used on the fleet and then they are priced at our cost with no mark-up. We provide an in house inventory to keep daily maintenance consistent and time efficient as well as cost efficient for you. Tracking of inventory by individual part, as well as individual repair effort, permits inventory management to be proactive as well as allowing required inventory levels to be ascertained by actual history.

The table shown below includes our top 10 part numbers used at the facility from our system. I included this to show a comparison between the pricing First Vehicle Services can get compared to just seeking the same items using the same annual quantity purchase between three vendors for each product line. During this study we inquired about state contracted pricing when available.

FVS assists the County in preparation of purchase specifications for additional or replacement vehicles and/or replacement equipment. FVS will also identify and recommend to Beaufort County services and equipment that will reduce the cost of maintenance and/or improve the quality of vehicular services provided to Beaufort County.

FVS started managing the County’s fuel site six months into the current contract. Due to this service the County has gained the following:

- Complete management of the fuel system, to include UST Compliance, underground storage tank compliance and certification of FVS staff members to manage the system according to law.
- Reduction of one county employee and unit associated cost.
- Competitive pricing that has been reviewed not only by the Beaufort County Staff but also by our competitors.
- In place emergency response plan, be it weather related or any other crisis.

First Vehicle Services
3009 Pamplico Highway
Florence, SC 29505
• Monitored fuel island and retail card system for all units and employees traveling in and out of the local area or status changed due to emergency.
• Restrictions in place to safeguard from the misuse of fuel by means of vehicles user draw limits and usage measured against the odometer or hour meter readings.
• Reporting by Vehicle and User by Department.
• County does not get billed for fuel till it is pumped using strict guide lines.
• On call 24/7 response to fuel related site issues.

FVS has experienced a dramatic increase in the cost of tires, fluids, parts, etc. due to circumstances beyond our control such as the cost of oil and raw rubber. We clearly understand your current budget restraints due to the economic conditions we are both experiencing. A strong partnership is not truly tested in the good times but in difficult times such as the one we find ourselves in today. We have not asked for a CPI increase during the contract period. With that in mind, FVS has proposed budget request of the current CPI of 1.4% with the increase totaling $18,750.

FVS values Beaufort County as a longtime partner and looks forward to continuing our partnership through these difficult economic times.

FROM: Dave Thomas, CPPO, Purchasing Director
SUBJ: Beaufort County Scrap/Waste Tire Service for IFB # 1310001340042223
DATE: June 10, 2013

BACKGROUND: The Public Works Department, Solid Waste and Recycling Section, collects 180-250 tons of waste tires annually from the convenience centers and consolidates them at the Tire/Baler building for recycling. Beaufort County issued an Invitation for Bids (IFB) on March 27, 2013 to solicit bids from qualified firms to provide services for the transport and recycling of waste tires. A non-mandatory pre-bid meeting was held on April 11, 2013 and bids were opened on April 30, 2013. The County received bids from three firms:

1. SC Tire Processing, Inc., Aiken, SC $12,480.00
2. VivaSC Recycling, Moncks Corner, SC $13,185.60
3. Liberty Tire Ridge Recycler’s Inc., Johnston, SC $14,872.00

The Purchasing Department staff reviewed the bids for responsiveness and evaluated the firms’ proposed cost. Based on the review of bids, SC Tire Processing was selected as the lowest responsible/responsive bidder and determined to meet the County’s services requirements required by the IFB. Please see Bid Tabulation as Attachment 1.

FUNDING: Revenue to pay for these services is generated by a SC Department of Revenue program through a $2 fee charged by retailers for each new tire sold in the state of South Carolina. The State returns funds from this program to each County, based on population, to cover the cost of recycling waste tires. Revenues are received in Accounts # 23450001-43310 & 43750. Expenses are charged against Account # 23450011-51160. Service for the current contract is provided by Ridge Recycling, Inc. and expenditures for FY2013 are estimated to be $25,000. Actual expenses for FY 2014 and beyond under the new contract are dependent on tonnage disposed of by our citizens. FY2014 expenses are expected to be in the same general amount.

FOR ACTION: Public Facilities Committee meeting occurring on June 17, 2013.

RECOMMENDATION: The Purchasing Department recommends that the Public Facilities Committee approve and recommend to County Council the award of a contract to provide waste tire recycling services to SC Tire Processing of Aiken, SC. Term of the contract is for one year with four one-year renewals upon mutual agreement by both parties. Funds for these services are available in the referenced accounts.

SUBJ: Updated Beaufort County Solid Waste Management Plan

DATE: June 12, 2013

BACKGROUND: The South Carolina Solid Waste Policy and Management Act of 1991 created a requirement for each County to develop and maintain a Solid Waste Management Plan (SWMP). The SWMP is required to cover a twenty (20) year planning horizon explaining how disposal of current and projected waste volumes within the County will be properly handled. The County’s SWMP also must address County recycling programs that contribute toward achieving State waste reduction and recycling goals. The current Beaufort County SWMP was developed and approved by Council in February 2000.

In view of the rapid growth and changes within the County since February 2000, staff felt a major revision of the SWMP was due. Beginning in June of 2011 staff and the Solid Waste & Recycling Citizen Advisory Board held a series of advertised/public workshops to review and revise the SWMP. In addition, staff met with staff of SCDHEC to review each chapter and provide comments on the SWMP revision throughout the process. The SWMP revision was completed at the February 2013 meeting of the Board when the SWMP revision dated February 2013 was approved and recommended to be sent to Council for approval.

Major revisions to the plan include:

1. States that, “To manage waste, Beaufort County plans to site, permit and construct a transfer station of suitable capacity to handle waste streams for the next twenty years.”
2. Incorporates the recommendation from the 2010 Comprehensive Plan: “to explore means of initiating mandated curbside pick-up for solid waste Districts 6, 7 & 9.”
3. Added that “Additionally, as curbside services are implemented across the County, services at Convenience Centers within these areas may be reduced / modified, providing for the combination / closure of some facilities.”
4. Organizes the document in accordance with State guidelines.

FOR ACTION: Public Facilities Committee meeting occurring on June 17, 2013.

RECOMMENDATION: Recommend that the Public Facilities Committee approve and recommend to County Council the updated Solid Waste Management Plan dated February 2013.

5.2 Collection, Temporary Storage, and Transportation of Solid Waste

- All solid waste facilities and equipment in Beaufort County are planned, designed, and operated as an integral function of this Plan
- Beaufort County will strive to improve solid waste management and recycling technologies to minimize the amount of waste disposed of in landfills
- Beaufort County will continue to study and pursue implementation of curbside collection of waste and recyclables
5.2.1 Convenience Centers

• The 2010 Beaufort County Comprehensive Plan addresses the future of Convenience Centers as follows:

  ➢ The County should explore an exclusive franchise system, allowing haulers to bid on servicing an entire Solid Waste District or a designated area within the Solid Waste District if not feasible for one hauler to service the entire district. This will help to reduce costs for citizens and decrease truck traffic in residential neighborhoods.
5.2.1 Convenience Centers – Continued

- The County should work with the Town to explore the provision of mandatory franchised curbside and recycling collection administered by the Town of Hilton Head.
- The County should increase the efficiency and capacity of its high-usage convenience centers by installing trash compacting equipment to complement curbside collection.

- As curbside services are implemented across the County, services at Convenience Centers within these areas may be reduced/modified, providing for the combination/closure of some facilities.

5.3 Solid Waste Transfer Stations

• A transfer station can be designed to transfer or process recyclables as well as collect and properly manage materials that may be better managed outside the solid waste stream such as household hazardous waste, tires, used oil, and electronics. Beaufort County does not have access to a transfer station.

• Without a transfer station to consolidate waste for longer distance transport, the only option for Beaufort County solid waste disposal is the Hickory Hill Landfill (8.4 years of estimated remaining life on permitted disposal / 13.2 years of estimated remaining life on current disposal rates)
5.3 Solid Waste Transfer Stations - Continued

- Beaufort County has authorized several investigations into solutions for this issue.
- In 2010 R.W. Beck (now SAIC), Beaufort County’s solid waste professional consulting firm updated their 2005 findings for Beaufort County. These findings included:
  - Nine of fourteen landfills contacted expressed an interest in Beaufort County’s solid waste. One of the three was Three Rivers Solid Waste Authority in Aiken County.
5.3 Solid Waste Transfer Stations – Continued

- Estimated range of capital costs for a 500 ton per day transfer station
  - High $6,025,000
  - Low $ 4,896,700

- Estimated range of cost/ton, including financing costs of capital
  - High Estimate $53.09/ton
  - Low Estimate $46.24/ton
5.7 Class III Landfills (Municipal, Industrial, Sludge, Incinerator Ash)

• The estimated remaining life of the Hickory Hill Landfill based on permitted and current disposal rate is 5.3 to 8.3 years. Beaufort County needs to secure another outlet for waste disposal within a short timeframe.

• The Act states that a county has "the responsibility and authority to provide for the operation of solid waste management facilities to meet the needs of all incorporated or unincorporated areas of the county”

• The County has concluded that the most prudent long range plan is to site a transfer station either in Beaufort County or a neighboring county.
5.14 Recycling Programs

- Beaufort County plans to continue its recycling programs through the use of its convenience/recycling drop-off centers and all other means possible.
- Curbside pick-up is the most convenient method of recycling, and the public is more likely to recycle based on convenience. In areas where the population density is high enough, the County will pursue initiation of mandatory curbside recycling.
- Beaufort County will continue to educate its residents on the importance of recycling.
- Beaufort County will seek to expand its public education programs.
5.14 Recycling Programs - Continued

• Beaufort County will seek to expand its public education programs
• Having a transfer station will allow:
  ➢ More flexibility in waste handling and disposal options
  ➢ Enable workers to screen incoming wastes to separate out readily recyclable materials
  ➢ Option of including a Materials Recycling Facility or a recyclable processing area will be considered for inclusion with the construction of a transfer station. This would enable the County to market it's recyclables according to the most economical practices available
5.16 Household Hazardous Materials (HHM)

- Beaufort County's Public Works department currently works with local citizen's groups to hold one-day events each year to collect HHM from residents.
- The option of including HHM collection facilities will be considered for inclusion with the construction of a transfer station, allowing for year round collection of materials such as paint, pesticides, cleaning supplies, and batteries.
5.17 Import and Export of Waste

- Per Beaufort County Code (ARTICLE III, Section 62-28), the County does not accept waste generated outside of Beaufort County at County operated facilities
Section 6.0 Goals, Policies, Strategies, and Barriers

6.1 Reduction
6.2 Recycling
6.3 Educational Programs
6.4 Technical Assistance
6.1 Reduction

- Methods that will be used to promote source reduction include speaking engagements, tours of solid waste and recycling facilities, newspaper articles, radio and TV commercials, and displays.

- By separating out a greater percentage of recyclable aluminum, paper, cardboard, plastic, and glass, Beaufort County's waste stream can be greatly reduced.
6.2 Recycling

• For FY11 the County recycled 23.7% of the defined Class Three waste generated in the County compared to the statewide average of 27.7%

• To meet the 40% goal, public education will be utilized to inform residents of recycling programs being implemented within Beaufort County and the best way for each resident to participate

• Beaufort County will continue to develop and distribute literature that focuses on recycling and its importance to the environment
6.3 Public Education

- A public education program is to inform the public, students, key decision makers and community representatives about current solid waste management practices, the need for waste reduction and recycling activities and future solid waste management plans in order to institute positive changes as needed.

- Information regarding Beaufort County's solid waste recycling program can be obtained from the County's website (www.bcgov.net/recycle).

- Beaufort County has and will continue to work with the Office of Solid Waste Reduction and Recycling to obtain assistance with their public education campaign and grant program.

ATTEST:

_____________________________________
Clerk to Council
May 20, 2013

To:        Gary Kubic, County Administrator  
            Beaufort County Councilmembers

From:      Richard C. Cyr  
            Hilton Head Public Service District

Subject:   General Obligation (GO) Bonding Authorization

Hilton Head Public Service District (PSD) is requesting Beaufort County Council’s  
authorization to commit $3.75 million in General Obligation bonds to construct  
certain public drinking water supply projects.

Background

As presented to the Beaufort County Council in September 2012, Hilton Head  
Island is experiencing saltwater intrusion into our traditional source of drinking  
water, the Upper Floridan Aquifer. Hilton Head PSD anticipates the loss of three  
more of the District’s remaining six water production wells in the next few years.  
Beaufort County Council has assisted Hilton Head PSD in the past by authorizing  
GO Bonding to construct our Reverse Osmosis Water Treatment Plant and our  
Aquifer Storage and Recovery Facility, both of which were needed to replace  
water supply lost as a result of saltwater intrusion.

Hilton Head PSD has recently completed an updated Water Supply Master Plan.  
This plan reviewed all potential alternatives to replace the current and future  
water supply losses to saltwater contamination. The current projects identified  
are:

- Expand the treatment capacity of the existing Reverse Osmosis (RO)  
  Water Treatment Plant by adding a 1.0-MGD (million gallons per day)  
  filter skid;
- Upgrade existing Middle Floridan Aquifer wells that feed the RO Plant;
- Construct a new Jenkins Island Water Booster Station.
In addition, funding is being requested for the relocation of our 24-inch water transmission main from the mainland to the Island. This relocation is required due to the construction of the Bluffton Fly-Over.

Project Costs

Hilton Head PSD is requesting authorization for GO Bonding not to exceed $3.75 million to complete the following:

- $1,590,000  Expand RO Plant by adding a 1.0-MGD filter skid
- 1,310,000  Upgrade 3 Middle Floridan Aquifer Wells for RO Plant
- 350,000  Jenkins Island Water Booster Station
- 500,000  Bluffton Fly-Over Transmission Main Relocation
- $3,750,000  Total

Timeline

Construction of the water supply projects would begin this fall. Work will take approximately one year to complete. Relocation of the transmission main will proceed as the Fly-Over construction schedule dictates.

Funding

Hilton Head PSD has applied for and completed the DHEC required Preliminary Engineering Report (PER) for funding through the South Carolina State Drinking Water Revolving Fund (SRF). The SRF loan is for 20 years with an interest rate of 1.9 percent.

Millage Impact

The PSD currently has a 3.0 Operations millage. There are no plans to adjust this millage upward despite the reassessment currently in progress.

Based on the most recent estimated numbers provided by Beaufort County staff, the Debt Millage would be:

Current GO Debt Millage 3.88
Proposed New Debt Millage 0.72
Total Proposed Debt Millage 4.60

The additional debt millage has an annual impact of $2.88 on an owner-occupied home assessed at $100,000.

Hilton Head PSD looks forward to discussing this matter with the Beaufort County Council's Finance Committee as soon as possible.

Subject: Unit # 15517 1989 Thomas Flat nose passenger bus

Date: June 21, 2013

Dear Mr. Thomas:

As per our previous conversation with regards to unit # 15517 a 1989 Thomas Flat nose passenger bus. The mileage on this bus this morning is 172,162 miles. The steering system is in need of repair at this time. This repair is estimated to be around $2,000. The A/C system in not working and is in need of repair as well. That repair could run upwards of $3,000 to $4,000 to complete. The bus has an electrical problem that will require extensive repair. Early troubleshooting has the bus needing a main wiring harness and electrical panel, which is no longer available from the manufacture. The wiring repair alone would make it cost prohibitive to repair this bus given the miles and age. For the last 2 ½ years this bus has become less and less dependable.

It is the recommendation of First Vehicle Services that this unit be taken out of service due to the continued high repair cost, mileage and age of the unit.

Please let me know if I can be of further assistance

Sincerely,

Curtis McDaniel

SUBJ: Hangar Rate Increase at the Lady’s Island Airport
Date: June 21, 2013

BACKGROUND. Due to increased operating costs related to maintaining the aircraft hangars and other airport infrastructure, an increase in hangar fees of 5% is requested at this time. During the past year several non-routine repairs have been made to the hangars and other airfield equipment. It is expected that additional repairs to hangars and airfield infrastructure will be needed in the coming year. This increase will help offset these expenses. The current hangar lease rate is $265.00 per month. The 5% increase would raise the rate to $278.25 per month and generate an additional $5,400 annually. In addition to the rate increase, it is also requested that the hangar property taxes be incorporated as part of the monthly lease payment. This would add an additional $17.75 per month for a total lease payment of $296 per month. There are currently 34 hangars located at the Lady’s Island Airport with 100% occupancy. The hangar waiting list consists of approximately 38 possible tenants awaiting a hangar space. The new rate is competitive with surrounding airports with hangars available for rent. The Aviation Board fully endorses this request.

FOR ACTION. Finance Committee Meeting on June 24, 2013.

RECOMMENDATION. That the Finance Committee approve and recommend that County Council increase the Hangar Lease Rate at the Lady’s Island Airport from $265 per month to $296 per month (5% increase plus monthly prorated hangar property taxes).
