## **PALS Indoor Pools Receiving New Pool Heaters**

Starting next month, new pool heaters will be installed in all Parks and Leisure Services (PALS) indoor pools. The pools will remain open for use during the installation process, but the pool temperature may be cooler than normal. Once fully installed, the new heaters will help to ensure comfortable swimming throughout the year. For more information, contact Shannon Loper, Interim PALS Director, at 843-255-6680.
