Convenience Centers to Allow Trailers

Beginning Saturday, October 29, four Beaufort County Convenience Centers - Bluffton, Hilton Head Island, Shanklin and St. Helena - will resume allowing trailers of **non-storm** generated debris.

Trailers containing construction debris (Class 2) can be no larger than 5-by-8 feet. Centers are not taking Class 1 waste (yard debris).

Residents should continue to sort yard debris (Class 1) and storm-generated construction debris (Class 2) into separate piles and leave them on the right-of-way at their residence.
