County's 2016 Financial Report to Include Projected Costs of Hurricane Debris Cleanup

Issuance of Beaufort County's [Comprehensive Annual Financial Report](#) for the Fiscal Year Ending June 30, 2016, has been delayed due to the significant financial impact to the County of costs associated with debris removal efforts stemming from the effects of Hurricane Matthew.

The County's external financial auditors have requested that the County determine and include information pertaining to these projected costs within the CAFR.

Once the CAFR is completed, a notice will be issued to the public and the report will be posted online at the County's website, where [past reports since 2000](#) can also be viewed.
