Beaufort County Schedules Burning of Storm Debris

Beaufort County established two debris management sites this past September allowing residents to dispose of storm related debris resulting from Hurricane Irma. The sites were located at Ihly Farms in Beaufort and Pinckney Point in Bluffton. The sites were closed October 8th. The amount of debris brought to each site is as follows:

- Ihly Farms - 3,100 cy yard waste/woody debris; 50 cy white goods (metal appliances); and 50 cy construction debris.
- Pinckney Point - 7,500 cy yard waste/woody debris; 106 cy white goods; and 840 cy construction debris.

All of the construction debris has been removed from each site and disposed at the landfill. The white goods have been collected and placed in the stockpile at the County's Public Works site on Shanklin Road to be recycled.

The yard waste/woody debris will be consolidated at the Pinckney Point site to be burned. Burning of this waste is scheduled to begin Monday, December 4th. Hours for burning will be Monday through Friday, 8 a.m. to 5 p.m. There will be no burning after 5 p.m. or on weekends. The burning operation is expected to take two weeks, weather permitting.

Additional information can be obtained by calling the Solid Waste and Recycling Office of the Beaufort County Public Works Department for more information at 843-255-2736.
