**FOR IMMEDIATE RELEASE**

January 3, 2017

## Update: Disaster Debris Removal from Private Rights-of-Way, Final Pass Underway for Most of County

The third and final pass for debris removal in Beaufort County began today. The final pass is expected to be complete by the end of February.

In areas of the County where the County's contractor has not yet completed the second pass, CERES will continue to collect debris and will return later for a third and final pass. Any remaining hurricane-generated debris should be placed at the right-of-way.

Beaufort County has added eight communities to its list of approved communities for hurricane-related debris removal. Debris removal from Beaufort County private roads and rights-of-way, including gated communities, began on Tuesday, October 18 by the County's contractor, Ceres Environmental.

[The Federal Emergency Management Agency](#) requires that the County receive a completed right of entry agreement before entering upon any private road or right-of-way.

As of today, the County has approved debris removal operations for 71 private communities, listed here:

- Battery Point
- **Battery Townhomes\***
- Bay Pointe Vistas

\*Communities marked with an asterisk were added after the [December 9 news release](#).

There are four communities pending approval:

- Fig Beach Club
- Shadow Moss POA
- Mariner Horizontal Property Regime
- The Preserve at Woodbridge

The following communities withdrew their application:

- Hampton Hall Club
- Old Point Townhouse Condominiums. Assoc., Inc.
- Westgate Circle

The County is working with FEMA to process additional applications. Communities approved after Jan. 3 will be named in a later news release.

Currently, Ceres has removed more than 1.5 million cubic yards of debris from public and private roads and rights-of-way throughout the County. At this time, it is expected that debris removal operations from rights-of-way should be complete by the end of February. Marine debris removal operations are expected to take longer.

To expedite recovery, officials encourage residents to follow [curbside debris removal guidelines](#) for the separation and removal of debris.

Residents are encouraged to visit the Beaufort County disaster recovery website at [beaufortcountydasterrecovery.net](http://beaufortcountydasterrecovery.net).
