**FOR IMMEDIATE RELEASE**

February 22, 2017

## Beaufort County to Conduct Roadway Pavement Condition Survey

Beaufort County will conduct a pavement condition survey to collect data related to County roadway maintenance and repair projects.

The survey will begin on Feb. 27 and is expected to continue through the end of March.

Beaufort County has contracted with F&ME Consultants to assist with the survey. Data Transfer Solutions, a subcontractor of F&ME, will drive all paved County maintained roads with their Mobile Asset Collection van to collect video and GPS data of the roadways.

Weather conditions could require that the van drive along a road several times in order to accurately collect the required data.

Anyone with questions or concerns should contact the [Beaufort County Engineering Department](http://www.beaufortcountysouthcarolina.gov/Engineering) at 843-255-2700.
