## **Mosquito Control Treatments to Begin June 11**

Please be advised [Beaufort County Mosquito Control](#) may conduct aerial and/or ground treatments in the area starting June 11. The treatment will occur Monday to Friday each week of the mosquito-breeding season, which typically ends in November. In accordance with Federal and State regulations, notice will be given prior to each week of treatment via the [Beaufort County Facebook page](#). Mosquito Control applies EPA-registered public health insecticides during ideal weather using low-flying aircraft throughout daylight hours and spray trucks from about 11:00 p.m. to 6:30 a.m.

For additional information, contact the Mosquito Control Department at 843-255-5800.
