August 2011 Report

Covers all contracts on track to get approved

Format will be

1. Contact Name
2. Contractor
3. Amount
4. Purpose and Description
5. Status
6. Projects funded from last report

Administrative Parking Lot – Additional Consultant Services – Andrews and Burgess – $5,000 – extra engineering associated with pervious pavement and contractor demo assistance and paving contract supervision.

Southside Park Pond Permit – Andrews and Burgess – $5,000 – would be for A&B and Newkirk Environmental to obtain additional wetlands permit to connect main ditch to pond. Temporarily dropping till watershed plan developed.

BMP Manual Upgrades as part of Reformatting – CDM

Task 4 – Establish peak flow reduction credit associated with volume control BMPs. – $9,300 will review the current requirements for peak flow design requirements, and techniques used by engineers to demonstrate compliance with the requirements. Will then determine an appropriate method of incorporating the benefits of the stormwater runoff volume control features into the techniques used by the engineers. Discussing additional staff comments and link to 100 year flood design.

Projects Funded since Last Report

BMP Manual Upgrades as part of Reformatting – CDM

Task 1 – Finalizing Reformatting/Update to BMP Manual. – $2,600 - New checklists and examples requested by staff in Section 3 of manual.

Task 3 – Assistance in establishing volume control credits for new practices – $5,600 - will work with the County to identify up to five (5) new on-lot practices to analyze, and then determine the appropriate volume control credit associated with each practice. This technical data will be used to update web-based program.
Step 2 Exemption Reviews

**Task 2 – Review analysis of existing development for compliance with runoff volume control requirements.** – $2,800 - review one more analyses of existing development, to determine if the analysis has properly the stormwater runoff volume control credits in the BMP manual.
